Location: Atlanta, Georgia

Relationships: Committed

Education: Fashion Design Degree, New York School of Design

Hobbies: Art, movies, and running

Personality: Creative and positive

Key Traits: Forward thinking, trendy, informed decision-maker

Background

David has worked at Clothes Line Design for about 1 year, but has been modeling since he was 18. He graduated with a Fashion Design degree from New York School of Design and was recruited immediately by C.L.D. to work directly with the lead designer on a new fashion line for young adults. David is extremely creative, has a great visual eye, and his positive attitude towards life makes him great to work with, as well as a great model.

Work Tasks and Goals

As the Associate Designer at C.L.D. David's main responsibilities are not only to create amazing designs, but also help coordinate runway shows, as well as shoots on occasion. David is a good friend of Alex's, and knows many people in the industry. He often gives Alex modeling leads, as well as sending his industry contacts, looking for talent, to Alex. He uses his tablet and phone mainly at work - since he is very hands on with designing, smaller devices work better for him. He only spends about 20% of his time, at work, on his phone or tablet, but does occasionally use his laptop when a larger screen is needed. David needs easy access to contact info and social links to stay in touch with Alex.
