Hobbies: Painting and reading

Personality: Bubbly and engaging

Key Traits: Fashion-forward,
efficient, influencer

Background

Janet has worked at Uptown Modeling Agency, as a talent scout, for about 6 years. She really loves the modeling industry and enjoys her job. As an accomplished model herself, having modeled for over 10 years, she is very knowledgeable of what it takes to make it in the industry. She loves to share her knowledge and modeling skills by mentoring aspiring talent.

Work Tasks and Goals

As a talent scout for Uptown Modeling, located here in Atlanta, Janet's main responsibility is researching and pitching new models to the agency. She is very computer savvy and uses her laptop as her main computer for research. But, she does enjoy using her tablet and phone when she is at home or when she is out at her favorite coffee house. She spends about 60% of her time at work on her computer researching talent each day. She needs easy access to all the important info – portfolio, bio, contact, etc. – so she can make a timely and informed decision on the talent she finds.
